

The Memquisit News

Year 3 Issue 27

Aug 2009

Welcome to our Twenty Seventh Newsletter.

I can't help but begin this newsletter with the weather. I can understand and maybe accept one summer with miserable weather but 2 in a row is uncalled for. Pardon my frustration, but isn't summer supposed to be sunny and warm for at least 80 percent of the time? This summer is the mirror reflection of summer 2008 with cloudy and rainy conditions on most days with a few sunrays peeking through the clouds on the odd day, not to mention very cool temperature. I can't believe that on some early mornings in July I am actually thinking of building a fire in the lounge's fireplace. It is definitely sweater weather. I thought that after last year's miserable temperature we would be complimented with at least 10 years of beautiful summer like weather, however I was wrong, we've been hit with identical conditions less than a year later. Hopefully after this one we will be good for the next 20 years. If anyone has a

straight connection to Mother Nature, please feel free to ask for a favor.

On a positive note, as mentioned in our last newsletter Frank was able to put our new website online in late June and has since made some changes and continues to do so every week. It is his intention to provide you with as much information as you can possibly get from this lodge by continuously updating you with current events, pictures and any new stuff happening around the lodge.

I have to tell you that he has spent a great deal of time in developing the new website and by what I can see he hasn't missed a beat. Frank is our Internet guru. I think its pretty good for a guy that has no background in doing any of this. I believe he is a natural and has a very promising future in that field if he chooses to do so. I tip my hat to Frank because he has done a good job with the website and now that he has full control of it, he will continue to update it on a

regular basis. I am sure there are many great things to come. Be sure to visit the site regularly so that you don't miss anything.

Our website is geared at providing the viewer with everything there is to know about the lodge and the lake where it is located. In the website you will find the history of the lodge and the lake. You will find all of the latest and most complete information available on all of our cabins, our lodge, our amenities, any new developments, West Bay, Lake Nipissing, things to do in the area and just about everything there is to know about Memquisit Lodge.

We have something for everyone. For the fisherman we have information on where to fish, complete with route maps to some of the ideal fishing holes. We even have information on what to use for what specie and how to fish West Bay for your favorite fish.

For the family, we have information on the various activities we have to offer for the kids

and the family such as our kid's program, pontoon historical and informative tours of West Bay and the West Arm. You will also find information on what there is to do in the area.

For the person that wants to relax we have information on what we offer such as Lisette Reiki and Swedish massage sessions and other things such as peace and tranquility only Memquisit Lodge can offer to its guests through its cabin configuration.

For the hunter, we have a very good late season waterfowl hunt complete with experienced guides, duck blinds and the crisp coolness of autumn air.

So for those of you that have yet to see this new website, take the time and visit it. Have a look around and you will soon see how complete this website is.

Lake Conditions

The lake water temperature is in the mid 70's. The water level is relatively normal for this time of the year. The weeds are slowly coming around.

Weather Updates

What can I say about the weather that I haven't said at the beginning of this newsletter? So far our summer was short-lived in the last full week of June as this period had the only summer like conditions. Hopefully August will provide us with decent temperature.

Fishing Report

What can I say except walleye fishing is at an all time low for us this year, however there are signs of recovery as in the last few days things seem to slowly be setting back to normal. Pike and bass fishing have been excellent so far. The musky fishermen were well rewarded to date with one group of four at the forefront landing 4 muskies on their 4-day trip to the lodge.

What's New?

Not much is new from the last time. Summer is the maintaining season. Projects are usually completed in the spring. Our summer so far has been very busy and calls and emails are still coming in everyday for reservations. Please be reminded that if you are a Canadian resident, September the 13th, 2009 is the deadline to get your boater's card.
