

Update August 29, 2020

As we transition from our peak season to our off season, we have decided to close the main lodge building earlier than usual. We've given this matter a lot of thought and after assessing the feasibility of keeping the main lodge open during these challenging times we have come to the conclusion that as of September 27th we shall be no longer be operating out of the main lodge building.

What this means for our guests:

The main lodge building which consists of office, kitchen, dining room, lounge and bathrooms will be closed for use as of September 27th. No meal plan packages will be offered after this date and the office will now be up at our main residence where we will be during your stay.

Commonly forgotten items, ice, Bait, Tackle as well as clothing are still available for purchase at our main residence. Gasoline purchases will be made by calling us at either our personal cell phone numbers or our business phone number (posted at gas bar) as we won't hear the buzzer in our main residence.

With that being said, everything else is business as usual. You will receive a pre arrival email with important information and forms a few weeks before your arrival along with what you will need to bring. The lodge and marina will remain open to housekeeping business as usual until Tuesday, October 13th 2020.

We appreciate your business and support

Working through this together.

Charlene and Frank
