

Well, after a long time waiting, here we are on our new website. I'm not much of a blogger, but I will try my best to post often and keep everyone up to date on what's going on at Memquisit Lodge.

Our spring came late this year, the last bit of ice finally melted on April 21st. This didn't give us much time to get all our projects done before opening weekend. Thank the heavens that Frank had some extra help this year, Larry has joined our crew. Larry owned his own business building pretty well everything you can think of, houses, house boats, docks, decks, re-shingling roofs etc. he has decided to semi-retire and work for Memquisit helping with his ideas and expertise, Frank managed to accomplish with him the following so far:

- Re-shingle the roof at Cabin 7
- New front deck on cabin 17
- New back deck on wash house for the cleaning crew
- Re-shingle the roof at Cabin 5
- Re-modelled bathroom at Cabin 12
- Finish the main dock (first half was completed in August 2015)
- New dock at Cabin 12
- New deck at Cabin 11
- Dock repair cabin 11
- Changed walk-way after the bridge
- Added deck over roots at cabin 4 deck
- New fridge cabin 9
- New bbq cabin 12
- New bbq cabin 9
- Repaired some windows

We also purchased 9 new 16 ft alumacraft fishing boats with new depth finders. To add to the 2 we bought in 2015 season.

That's about all I can think of at this time.

Thanks for taking time to read.
